# IMPORTANT SUCCESSES SCORED BY ENTENTE ALI

The vigorous offensive of the entente allies on the French, Galician and Italian fronts, is still being rewarded with important successes. In Austria, the Italians have captured the city of Gorizia, 22 miles northwest of Triest; in Galicia, the Russians in quest of Lemberg, have further carried out their endeavors toward the capture of Stanislau from the Austro-Germans, while in France, the French and British forces in the Somme region have attacked and captured additional points of advantage from the Germans.

The capture of Gorizia by the Italians, seemingly is as important as the gains by the allies obtained in the recent synchronous offensive, the city being the door through which the Italians may now pass in an endeavor to carry out their long cherished idea of capturing Triest, Austria's big sea port, at the head of the Adriatic sea.

In the fall of Gorizia, in which Rome says the Austrians were completely routed, the Italians inflicted heavy casualties on its defenders, too', more than 10,000 men prisoners and captured considerable quantities of war requisites.

The Russian general, Letchizky has driven his wedge further into the Austro-German line near Stanislau, capturing eight miles of that important city through which the railroads leads to Lemberg, the town of Tysmienitsa. Northeast of Tysmienitsa, the Russians have crossed the right bank of the

Northeast of Tysmienitsa, the Russians have crossed the right bank of the Koropice river and captured a number of important positions west of Velesmioup and southward along the Niznioff-Monasterzyka railroad, making the Russian menace against Halicz greater. To the south of Tysmienitsa, the Russian advance has reached to Stokovoheia.

Berlin admits the retirement of the Austro-Germans behind the Niznioff-Tysmienitsa, Ottynia line, but says that in the Carpathian region, heights held by the Russians near Jablonitsa and Vorocht and west of Tararov were captured by the Germans and that strong Russian attacks in the Delatyn district were repulsed.

North of the Somme river in France, the Australians have pushed back the Germans near Pozieres two hundred yards over a front of six hundred yards, while the French have driven out the Germans from a trench recently captured from them north of the Hem wood and reoccupied it. In the Verdun sector, heavy artillery activity is in progress, near Fleury, Vaux-Chapitre and

## Austrian Subsea Craft Is Sunk By French Destroyer

[Republican A. P. Leased Wire] LONDON, Aug. 3.—"A French tor-pedo boat destroyer torpedoed an Austrian submarine Tuesday north of the Island of Corfo," says a dispatch to the Exchange Telegraph company from Athens. "It is considered certain," it says, "that the submarine sank with the crew."

An official dispatch form Berlin, according to Reuter's Amsterdam cor-respondent, says that between July 31 and August 5 one German submarine sank in the North sea thirteen British steam trawlers and one British government coal steamer.

# GIANT CROP LOSSES SEND WHEAT MARKET SOARING SKYWARD

CHICAGO, Aug. 9.— Giant crop parently had much to do with the extreme prices in the United States and Candada sent the wheat market today nearly straight skyward. At one time the ascent of prices amounted to 11% c a bushel. Trading closed in a whiel a bushel. Trading closed in a whirt of excitement, showing net gains of 10%c to 11%c, with the September option at \$1.44% to \$1.44%, and with December at \$1.48 to \$1.44%, and with December at \$1.48 to \$1.44%, and with December at \$1.600,000 to 100 to 100

had been foreseen even by the gloom-lest prophets. Black rust spreading in Canada and indicating that the crop there would be cut down 136,006,000 bushels from the 1915 total, made the situation still more acute, as the United States and Canada have been breadstuff supplies to the countries that in the face of war difficulties have still been able to import.

have still been able to import.

The biggest jump in prices today came right at the outset exactly 8c a bushel over night. Strenuous efforts to buy cleared the market at intervals almost completely bare of offerings, and forced the market higher and higher until the May delivery had touched \$1.53%, a price just 13%c under the topmost level on record in the violent fluctuations of the first year of the European war.
